

# JCM 105 Collar Leak Clamps

## JCM 135 All Stainless Steel Collar Leak Clamps

For Quick, Permanent repairs of solvent weld PVC pipe joints.

JCM 105/135 Collar Leak Clamps provide a simple, quick solution to troublesome leaks in PVC solvent weld pipe systems - without having to cut out fittings or modifying your system. These heavy duty clamps have many features which assure a successful repair, even under the most adverse conditions.

### How To Order

- |   |   |  |
|---|---|--|
| 1. Determine O.D. of pipe.                        | 3. Specify clamp number. For standard clamp, order model 105. For all stainless clamp, order model number to 135. | EXAMPLE:<br>For 3" Class 160 PVC pipe, order: 105-0350-6.<br>For All Stainless Clamp, order: 135-0350-6. |
| 2. Select proper clamp O.D. range and band width. |   |  |
